FARMVILLE

There was a time in the history of Farmville when Lunenburg was one of its best patrons and while the trade from that grand old county, generally called the 'Free State, has fallen off it is still no mean contributor to our success as a town and we are watching Lunenburg grow with genuine int-rest.

The building of the Tidewater railroa t through that country has given a new life-thrill to it. Real estate values have greatly increased and the timber interests of the county are attracting wide spread attention. Victoria, the terminous of a division of the road, is building rapidly and promises to be a town of considerable size and importance. There is no good that can come to Lunenburg that Farmville will not rejoice in.

There 117 students at Hampden Sidney this session as against 72 two years ago and 82 last year. The number of new students is 79 as against 22 two years ago and 43 last year. Of the whole numb r enrolle this year Virginia sends 89 West Virginia 2s, Tennessee 3, New Jersey, 2, while Florida, Illinois, Maryland, Mississippi and North Carolina send one each, and Japan sends one. This is doing well and Richmond should "let well enough alone."

A library for Farmville may be reckoned among the assured facts. The mothers of our town are behind the movement and that means it must go. At a recent public meeting which was held in the interest of the project, representative business men made enthusiastic speeches in its advocacy and nothing remains but to get the books and go to reading. McCauly says, "reading makes a full man," so that we will have two places at which our people may get 'full,' library and dispensary.

The Normal girls not only enjoy the splendid faculty of 26 of gifted men and women, Mrs. Brooks, the accomplished lady matron, who has been kept from the school for sometime, is on duty again.

The Episcopalians of our town are still without a rector, though the pulpit of the church has been well filled of late.

Mr. Garnett, our new postmaster begins to look very much at home in the new position. With pleasant duties to perform and a $2000 salary to draw with unvarying regularity most of us would feel comfortable in the cozy official nest. With one exception, that of star route mail carriers, Uncle Sam is a good pay master. The old gentleman is especially kind in his dealings with his day laborers, who work only 8 hours and have 16 for play and sleep. I have always thought that was idea division of the day. Farmers who rise at 3 a m and retire at 8 p m went agree with me however.

The health of Mrs. Tom Clark is far from good, and she may go to a sanitarium near Asheville, N. C. for treatment.

Dr. J. W. Gills has elaborately furnished offices over the store room of Messrs. Verser & Son. He is gaining in popular favor day by day, and is not only learned in his profession but knows how to meet with the people. A cheerful, companionable, family physician is better than physic.

Mr. Vernon Paulette went west not in search of a wife, but he found one and telegraphed the fact to his Farmville friends. A happy greeting awaits them on their coming to the old home, and the old friends.

Our merchants and milliners are stocked up for spring and summer and stand waiting for customers.

Mrs. R. S. Paulette and sister Mrs. Bettie Venable, of Hampden Sidney, have been visiting in Washington and Baltimore.

Mrs. Dr. Messenger is on a visit to home folks in Iowa.

Mrs. Wallace Burnette, of Washington, who has been with us regaining her strength after practical illness, will return to her home on the 1st of April.

Prospective 'sweet girl graduates are already excited over diplomas, flowers, milliners, white dresses and farewells. May their brightest hopes be all realize l. And yet this broader field before them is not a flower-garden but a work-field

Bishop Tucker paid his first visit to this parish recently and has left behind him a pleasant memory.

I wonder that Farmville ever abandoned holding her annual Fairs They brought together numbers of our people and this of itself is well, while the exhibits stimulated every branch of industry. Nothing contributes more to good house-keeping than when our housewives begin to compete for prizes for best bread, cakes, 'pies and things.' I never aspired to be one of the jurors but have enjoyed immense y the satisfaction of the victors. Wholesome food well cooked is man's best physical blessing, and Southside Virginia is the home of good cooking. I have travelled far and wide and yet have to find a peo le who live as well day by day What other people beneath the Stars know anything of Brunswick Stew? the coming field pea? the genuine corn pudding or the green apple pies? They are simply "none suchs."

The yellow banners are waving on our flower sorders and the grass is peeping out on our trees. The stately weeping willows that stand guard about the home of the late Governor McKinney are particularly attractive in their new spring dress. My hope is that the frost wont nip the budding and the blooming.

The Normal girls have the happy faculty of entertaining each other in most delightful manner. The A's entertain the B's and then the compliment is returned. Dr. and Mrs. Jarman are charming entertainers and fortunate the guests who enjoy their hospitality. Miss Andrews is the gifted news,aper writer and through the columns of the Times Dispatch keeps the workings of the school well before the public.

In the death of Mr. B. L. Anderson Farmville has lost a model business man and a good citizen. He began business in Farmville here in 1866 and continued in it until failing health forced his retirement. He will be missed from church and State.

President Castro has recovered sufficiently to receive ovations.

Chamberlain's Cough Remedy is both Agreeable and Effe. tive.

Chamb.rlain's Cough Remedy has no superior for coughs, colds and croup, and the fact that it is pleasant to take and contains nothing in any way injurious has made it a favorite with mothers. Mr. W. E. Pelham, a merchant of Kirksville, Iowa, says: "For more than twenty years Chamberlain's Cough Remedy has been my leading remedy for all throat troubles. It is especially successful in case of croup. Children like it and my customers who have used it will not take any other."

Sold by J. R. Atwood, Appomattox; R. J. Carter, Prospect; E. F. Glover, Evergreen.

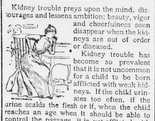
Rheumatic Pains Relieved.

B. F. Crocker, Esq., now 84 years of age, and for twenty years Justice of the Peace at Martinsburg, Iowa, says: "I am terribly afflicted with sciatic rheumatism in my left arm and right hip. I have used three bottles of Chamberlain's Pain Balm and it did me lots of good."

For sale by J. R. Atwood, Appomattox; R. J. Carter, Prospect; E. F. Glover Evergreen.

Mr. Roosevelt is a mollycoddle himself when it comes to tacking tariff revision or Mayor Schmitz.

Women as Well as Men Are Made Miserable by Kidney Trouble.



Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear under its influence; backaches are out of order and dizziness.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the kidneys are sick too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is not yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy, The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Home of Swamp-Root.

Do make any mistake, but remember the name, Swamp-Root and Dr Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

OLD BUCKINGHAM.

THE GRAND OLD COUNTY PHOTOGRAPHED.

Many Interesting Reports Made of Her People.

Buckingham.

With the mercury up to 94° on Friday, the 26th there was one of the most terrific fires ever seen in woods or fields. It came through a piece of heavily timbered land on Mr. J. H. Fitzgerald's farm, burning fences and everything in its way, and when it reached a pasture field that had recently been burned over, so dry was the stubble that had been left (the land was wet when it was first burned) that it ran through this field and destroyed another long fence. The fire also swept over Mr. Dick Crews' land, and burned to Kimlock's saw mill At the same time another fire was raging on both sides of the road leading to Bethleh m Church. With the extremely warm weather and the wind blowing as it did last week the hand of man was powerless to cope with the devouring flame, and the loss of much property was the result.

Dr. G. L. Morriss was quite sick last week, but was out again Friday and Saturday.

Miss M. G. Morriss (one of the Doctor's sisters) had a narrow escape fr m being killed by a run away horse in Lynchburg. The plucky young lady jumped in time to save herself and the horse kept on with her escort, who was killed

Mrs. J. B. Nowlin went to Lynchburg to spend Easter.

I recall another extemporaneous piece of poetry that was composed by the same author that was quoted from by the Appomattox correspondent last week. He (the poet) was asked to make a pun on the name of a Mr. Brown and this was what he said:

"Well Mr. Brown I have viewed you up and I have viewed you down,
And I think you'd better sell your watch and buy a pair of trousers."

The other Appomattox paper claims to give more Appomatox County news than any other; I hope the "Times" correspondents will see to it that this paper is reported for as well as the best.

Dillwyn.

This little town—better known as White-Hall—is quite a busy place this winter. Railroad ies, lumber, and tobacco have been handled here in large quantities; some tobacco has been bought outright by Mr. H. M. White, but most of it has been put in the Planter's Protective Association Priney The managers are bonded agents, Messrs. Oliver, Silvey and Claiborne, have things in nice shape, the spacious warehouse contains at this writing over 200,000 lbs. of tobacco, put there by Buckingham farmers, is awaiting a fair and equitable price. The tobacco is ben handled in a business manner, the drying racks are full of good tobacco, and the luge are being steamed and primed and put in readiness for sale. Mr. Temple Claiborne, floor-manager of the priery, has had a lot of experience in handling tobacco, and knows his business; and Mr. W. R. Silvey, who is also Cas ier of th Dillwyn Bank, attends to the clerical department in an efficient manner and enjoys the confidence of all the patrons

Mr. Tucker, of Blacketone, who has been appointed State grader for the Dark Tobacco Associa ion of Virginia paid a visit recently to the Dillwyn priery, and spoke in his best terms of the management here, and farther stated that the tobacco in the Dillwyn priery was amongst the very best in the State, rather leaf and fewer "specks" and "frog-eyes" than any he had in spected.

I hope that all the farmers of our county may be able to see their way clear another year to form a Co. operation and "pool" their tobacco. We all know that prices this year have been fairly good, but with wages at a dollar a day for colored "hands," tobacco costs more to raise by 100 per cent. than it did 5 years ago; and the price, realized this year are the outc me of the Association's work in Kentucky, Tennessee, and Virginia and not from any liberality on the part o the Trust, and just so sure as we allow our organization to languish and lapse, just so sure will our tobacco revert ag in to an old price that the Trust chooses to fix. A jolly party of over forty young men and maidens were entertained at Millwood by Mrs. Hebditch on Good Friday night; it was the occasion of the breaking up of the private school kept by Miss Estelle Stokes, of Powhatan, at the Hebditch home.

It would be too tedious to mention individual names, of those present from far and near, but it was a well-behaved crowd, and they seemed to enjoy their dancing immensely. Such an unusual sight to see a lot of girls in white dresses, at interv ls promenading the yards and porches with their escorts, no fires in the house, and windows all raised, and all do rs wide open up to 4 a m, just as if it had been July instead of March.

Your correspondent, who has seen 3 score Ma ch's never saw the like before.

Mr. Archur Duncan, of Shepherds, and Mr Whitlow, of Dillwyn furnished the music.

I watch that swing go up and down,

Teacher's Examination for '07

The first examination for 1907 will be held at Appomattox Court ouse, on our regular co ur se 29-3, 30-3 and 31 beginning each day at 9 a m. Teachers and others of these examinations, but who do not expect to attend summer institute should take the examination, as the result of a July examination may be much too late to contract for schools. Those who take the March examination and fail, will not be allowed to take the July examination until after the August examination, thus losing one term in the meantime. Those who attend summer institute and fail to make ninety (90) per cent, will be permitted to take the examination on one-half of the course this year and, if successful, will be issued a provisional certificate good for one year, of average grade as the averages warrant. The examination can be completed in 1908, when a full certificate of proper grade will be issued.

The examinations on the first year of the Professional course, will be held on the 29-h of July; for second year on the 30th, and for third year on the 31st.

Both White and Colored will be examined the same days, but in separate rooms.

For further information for all First Grade teachers, write to the undersigned, before the May examination. J. K. HENNAH, Supt Appomattox County

Do Not Crowd the Season.

The first warm days of spring bring with them a desire to get out and enjoy the exhilirating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many need their flannels. Then a cold wave comes and people say that grip is epidemic. Colds at this season are even more dangerous than in mid-winter, as then is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia when it was used. It is pleasant and safe to take. Children like it.

Danger of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. LaGrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good."

Deafness cannot be Cured.

by local applications, as they cannot reach the disease portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
